

## Strengthen the Climate Action Plan

We, the undersigned, appreciate that the City of Santa Cruz has undergone an extensive and sincere effort to reduce our city's contribution to greenhouse gases through a plan known as the Climate Action Plan. In order to insure that the plan is implemented, we hereby ask the City Council to add the following sections to it:

1. **Appoint members of the public to a team that will oversee the implementation of the Climate Action Plan.** In addition to staff, the team that meets regularly to implement the plan should include concerned members of the public.
2. When doing traffic projections for the purpose of planning infrastructure projects, require staff to engage in **automobile trip planning consistent with the goal of 10% reduction** of car trips in town already in the Plan.
